Not only have we built trailers for over 20 years, our Toy Dumpers are among the most famous in the United States. At a time when many of the biggest names in the business have ceased operations, Carson Toy Hauler Trailer Division has continued to update, innovate and expand, offering more models than ever before. Today we are considered one of the dominant manufacturers in the niche, separated from the packaging. We are a family business that personally uses the products we build and sell for our own enjoyment. We have enjoyed ourselves because we are extremely proud of our product, our reputation and in being a reliable asset to the trailer industry at large. We have never stopped reinvesting in our company as we are really in it for the long haul. And we never cut corners. For the outer siding, Carson always uses the .030 mill thickness aluminum siding, compared to the .023 mill's thick siding used by most of our competitors. It's almost 25% thicker! And don't forget to compare our metal roof design against the competition. The majority of trailer manufacturers use rubber roofs to cut corners. Our superior design is designed to last long-lasting, so you will enjoy lower maintenance costs and fewer repairs. It is simply the beginning. Since we actually use our toy dump trucks while living off-road lifestyles, our interiors reflect the functionality and ease of use that most off-road enthusiasts dream of. We know what it's like to dry camp at the dunes or in the desert or mountains. That's why we don't install carpets or cloth curtains. We don't like how these things catch dirt, as much as you do. Instead, we have implemented easy-to-clean floors and window treatments that really stand up to dust and dirt. But if you want to convert your coach into a holiday home, we have carpet kits that are easy to install and removed. And, that's just the beginning of what we can do to customize your new trailer. Whether you need the roof up to accommodate taller vehicles, longer lengths for increased hold or longer ramp doors to accommodate your low profile sports car, we can build to spec. This is YOUR New Trailer. We adapt your appliances, reconfigure your design features and even engineer to fit. Do you want to add or remove a refrigerator or air conditioning or install a push/pull electric vent fan? How about adding or removing interior walls, cabinets and windows? Maybe you've got a unique idea for your interior/exterior colors, materials, fabrics and/or floors. Even if your situation requires customized GVWR capabilities, we will work diligently to help you create the trailer for your dreams. We never to test our products. We recently tested a Fun Runner Toy Hauler Hauler unity on site at a trade show, to give visitors a vivid example of how truly superior our product really is. Three Carson Trailer staffers dry camped in a Fun Runner SB 252 demo model for 3 nights. At night, the temperature dropped in the twenties, but the heater kept them completely comfortable, without missing a beat. They had plenty of hot water, with each of our staff taking normal showers, every day. By the end of the trade show, the plant tank was still at 2/3's capacity. A trailer that works as hard as you. If you are like most off road enthusiasts, you work hard and play hard. It's time you had a toy trailer that works as hard as you do. Be sure to visit a Carson Trailer dealer near you and start planning for the trips of your lifetime.
